

Grand River Source Protection Area

SOURCE PROTECTION PLAN VOLUME II

Chapter 10: Region of Waterloo

April 1, 2025

TABLE OF CONTENTS

10.0	REGION OF WATERLOO	10-1
10.1	Definitions	10-1
10.2	Region of Waterloo Source Protection Plan Policies	10-2
10.3	Policies Addressing Prescribed Drinking Water Threats.....	10-10
	Threat 1.0 – The Establishment, Operation or Maintenance of a Waste Disposal Site within the meaning of Part V of the Environmental Protection Act	10-10
	Threat 2.0 – The Establishment, Operation or Maintenance of a System that Collects, Stores, Transmits, Treats, or Disposes of Sewage	10-16
	Threat 3.0 – The Application of Agricultural Source Material (ASM) to Land	10-27
	Threat 4.0 – The Storage of Agricultural Source Material (ASM)	10-27
	Threat 6.0 – The Application of Non-Agricultural Source Material (NASM) to Land	10-32
	Threat 7.0 – The Handling and Storage of Non-Agricultural Source Material (NASM).....	10-32
	Threat 8.0 – The Application of Commercial Fertilizer to Land	10-35
	Threat 9.0 – The Handling and Storage of Commercial Fertilizer	10-35
	Threat 10.0 – The Application of Pesticide to Land	10-37
	Threat 11.0 – The Handling and Storage of Pesticide	10-37
	Threat 12.0 – The Application of Road Salt.....	10-39
	Threat 13.0 – The Handling and Storage of Road Salt.....	10-39
	Threat 14.0 – The Storage of Snow	10-45
	Threat 15.0 – The Handling and Storage of Fuel.....	10-47
	Threat 16.0 – The Handling and Storage of a Dense Non-Aqueous Phase Liquid (DNAPL).....	10-50
	Threat 17.0 – The Handling and Storage of an Organic Solvent.....	10-52
	Threat 18.0 – The Management of Runoff that Contains Chemicals Used in the De-icing of Aircraft	10-53
	Threat 21.0 – The Use of Land as Livestock Grazing or Pasturing Land, an Outdoor Confinement Area or Farm-Animal Yard	10-54
	Threat 22.0 – The Establishment and Operation of a Liquid Hydrocarbon Pipeline.....	10-57
	Threat 19.0 – An activity that takes water from an aquifer or a surface water body without returning the water taken to the same aquifer or surface water body	10-59
	Threat 20.0 – An activity that reduces the recharge of an aquifer.....	10-59

Appendix A: List of Policies As Per Section 34 Of Regulation 287/07.....	10-62
Appendix B: Prescribed Instruments and Policy Summary Tables.....	10-64
10.4 Schedule A: Region of Waterloo Groundwater Systems: Index Map	10-68
10.5 Schedule B: Region of Waterloo Groundwater Systems: Map A	10-69
10.6 Schedule C: Region of Waterloo Groundwater Systems: Map B	10-70
10.7 Schedule D: Region of Waterloo Groundwater Systems: Map C	10-71
10.8 Schedule E: Region of Waterloo Groundwater Systems: Map D	10-72
10.9 Schedule F: Region of Waterloo Groundwater Systems: Map E.....	10-73
10.10 Schedule G: Region of Waterloo Groundwater Systems: Map F	10-74
10.11 Schedule H: Region of Waterloo Groundwater Systems: Map G.....	10-75
10.12 Schedule I: Region of Waterloo Groundwater Systems: Map H.....	10-76
10.13 Schedule J: Region of Waterloo Groundwater Systems: Map I	10-77
10.14 Schedule K: Region of Waterloo GUDI Systems: Index Map.....	10-78
10.15 Schedule L: Region of Waterloo GUDI Systems: Blair Rd & Willard	10-79
10.16 Schedule M: Region of Waterloo GUDI Systems: Greenbrook.....	10-80
10.17 Schedule N: Region of Waterloo GUDI Systems: Waterloo North	10-81
10.18 Schedule O: Region of Waterloo Wellhead Protection Area, Water Quantity: Township of Woolwich	10-82
10.19 Schedule P: Region of Waterloo Issue Contributing Areas: Index Map	10-83
10.20 Schedule Q: Region of Waterloo Issue Contributing Areas: Branchton Meadows	10-84
10.21 Schedule R: Region of Waterloo Issue Contributing Areas: Elgin & Middleton Street 10-85	
10.22 Schedule S: Region of Waterloo Issue Contributing Areas: Greenbrook	10-86
10.23 Schedule T: Region of Waterloo Issue Contributing Areas: Hespeler & Pinebush	10-87
10.24 Schedule U: Region of Waterloo Issue Contributing Areas: Mannheim West	10-88
10.25 Schedule V: Region of Waterloo Issue Contributing Areas: Parkway	10-89
10.26 Schedule W: Region of Waterloo Issue Contributing Areas: Strange & William St	10-90
10.27 Schedule X: Region of Waterloo Issue Contributing Areas: Wilmot Centre	10-91
10.28 Schedule Y: Region of Waterloo Surface Water Systems: Index Map	10-92
10.29 Schedule Z: Region of Waterloo Surface Water Systems: Map A	10-93
10.30 Schedule AA: Region of Waterloo Surface Water Systems: Map B.....	10-94
10.31 Schedule AB: Region of Waterloo Low / Moderate Policy Applicability Area (Liquid Hydrocarbon Pipelines).....	10-95

10.0 REGION OF WATERLOO

The following Source Protection Plan policies apply to vulnerable areas within the Region of Waterloo, including those originating from neighbouring municipalities.

Policies in this chapter align with the 2017 Technical Rules. Reference to the vulnerable areas has not been included in the sidebar information for the Region of Waterloo Source Protection Plan policies. This information is contained in the respective policies, if applicable.

Reference should be made to the County of Wellington and Perth County Source Protection Plan policies for portions of the water systems and vulnerable areas located within those jurisdictions.

10.1 Definitions

General definitions are provided in Volume I of the Source Protection Plan or the *Clean Water Act, 2006*. Defined terms are intended to capture both the singular and plural forms of these terms.

The following definitions shall apply to the Region of Waterloo Source Protection Plan policies:

Term	Definition
Conditions	Are referred to in section 15(2)(g) of the <i>Clean Water Act, 2006</i> and are identified in the Grand River Source Protection Area Assessment Report as resulting from past activities and that are significant drinking water threats.
Condition Sites	Locations where conditions are present.
Emergency Response Plan	A municipal emergencies plan developed in accordance with the Emergency Management and Civil Protection Act.
Existing	<ul style="list-style-type: none"> a. An activity engaged in at a particular location in a vulnerable area on the effective date of this source protection plan; or b. When an activity was engaged in at a particular location within a vulnerable area at any time within five (5) years prior to the effective date of this Source Protection Plan but not on the day before the effective date of this Source Protection Plan and within 5 years following the effective date of this Source Protection Plan such activity is proposed to be resumed; or c. A replacement facility or structure of similar size and capacity to service an existing activity.
Future or New	An activity that is not existing as defined within the Region of Waterloo Source Protection Plan policies.
Large Parking Lot	For all surface parking areas on site with a total greater than or equal to eighty (80) parking spaces or with a paved area, including aisles and driveways, measuring greater than or equal to 2000 metres squared.

Term	Definition
Large Septic System	A single or combination of septic systems regulated under the Ontario Water Resources Act.
Medium Parking Lot	For all surface parking areas on site with a total greater than eight (8) and less than eighty (80) parking spaces or with a paved area including aisles and driveways measuring greater than 200 and less than 2000 metres squared.
Salt	Any solid or liquid chloride-based chemical used to melt ice.
Uncovered Salt Storage	Storage and handling are directly exposed to the elements with the exception of salt stored in sealed bags.
Covered Salt Storage	Storage and handling are not directly exposed to the elements; this includes salt stored in sealed bags.
Small Parking Lot	For all surface parking areas on site with a total of less than or equal to eight (8) parking spaces or with a paved area including aisles and driveways measuring less than or equal to 200 metres squared.
Small Septic System	A septic system regulated under the Ontario Building Code Act.
Stormwater Management Facility	Any stormwater infrastructure for the treatment, retention, infiltration or control of stormwater including but not limited to ponds, unlined trenches, etc. but excluding piped stormwater sewers.
Tier 3 Water Budget	The Centre Wellington Tier 3 Water Budget and Local Area Risk Assessment as required under the <i>Clean Water Act, 2006</i> .
Transport Pathways	A condition of land resulting from human activity that increases the vulnerability of a raw water supply or drinking water system set out in clause 15(2)(e) of the Clean Water Act, 2006. This can include constructed pathways such as, improperly abandoned boreholes, improperly maintained or improperly abandoned wells, pits and quarries, geothermal systems, underground parking lots and excavations. This does not include low-density residential basements or subsurface utility corridors.

10.2 Region of Waterloo Source Protection Plan Policies

Policy Number	Implementation and Timing Policies
RW-CW-1.1.1 <i>Implementation & Timing</i>	This source protection plan came into effect on July 1, 2016, the effective date specified in the Notice of Approval posted on the Environmental Bill of Rights Registry. Amendments to the Source Protection Plan are permitted in accordance with the <i>Clean Water Act, 2006</i> , and the General Regulations. The effective date for amended policies, only including but not limited to the addition of new drinking water threats and regulated areas and activities, is the date specified

Policy Number	Implementation and Timing Policies
<p>RW-CW-1.1.2</p> <p><i>Implementation & Timing</i></p>	<p>in the posting of the Notice of Approval of the amendment provisions on the Environmental Bill of Rights Registry</p> <p>Except as set out below and/or where established in individual policies, the policies contained in this Source Protection Plan shall come into effect on the date set out by the Minister:</p> <ul style="list-style-type: none"> a. For Section 57 of the <i>Clean Water Act, 2006</i>, if an activity was engaged in at a particular location before the relevant policies within the Source Protection Plan took effect, policies regarding prohibited activities do not apply to a person who engages in the activity at that location until 180 days from the date the Source Protection Plan takes effect; b. For Section 58 of the <i>Clean Water Act, 2006</i> if: <ul style="list-style-type: none"> i. an activity was engaged in at a particular location immediately before the relevant policies within this Source Protection Plan took effect; ii. the Risk Management Official gives notice to a person who is engaged in the activity at that location that, in the opinion of the Risk Management Official, policies regarding regulated activities should apply to the person who engages in the activity at that location on and after a date specified in the notice that is at least 120 days after the date of the notice. c. For Section 59 of the <i>Clean Water Act, 2006</i>, policies regarding restricted land uses shall come into effect the same day the relevant policies within the Source Protection Plan takes effect; d. Where the Source Protection Policies require the development and implementation of education and outreach programs under section 22(7) of the <i>Clean Water Act, 2006</i>, and incentive programs and specified action policies for significant drinking water threats, such programs and actions shall be developed and implemented within five (5) years from the date the relevant policies within the Source Protection Plan takes effect.
<p>RW-MC-1.2</p> <p><i>Implementation & Timing</i></p>	<p>Except as set out below, the policies contained in this Source Protection Plan shall come into effect on the date set out by the Minister:</p> <ul style="list-style-type: none"> a. For Sections 43 of the <i>Clean Water Act, 2006</i>, if an activity was engaged in at a particular location immediately before relevant policies within this Source Protection Plan took effect, amendments to Prescribed Instruments shall be completed within three (3) years from the date the Source Protection Plan takes effect;

Policy Number	Implementation and Timing Policies
	<p>b. For Sections 40 and 42 of the <i>Clean Water Act, 2006</i>, the Council of the Region of Waterloo and the Area Municipalities shall adopt an Official Plan Amendment to conform with the relevant significant threat policies within five (5) years from the date the relevant policies within the Source Protection Plan comes into effect or the next Official Plan review required under Section 26 of the <i>Planning Act</i> whichever comes first. All Zoning By-law Amendments to conform with the relevant significant threat policies shall be completed within two (2) years from the adoption of the Official Plan conformity amendment.</p>

Policy Number	Uses and Areas Designated as Restricted Land Uses Policies
RW-CW-1.3 <i>Part IV- RLU</i>	<p>In accordance with Section 59 of the <i>Clean Water Act, 2006</i>, all land uses identified within the Region of Waterloo Official Plan and the Area Municipal Official Plan and Area Municipal Zoning By-laws are designated as land uses to which the restricted land uses provisions of the <i>Clean Water Act, 2006</i> apply where activities are or would be a significant drinking water threat.</p> <p>Despite the above policy, a Risk Management Official may issue written direction specifying the situations under which a planning authority or building official may be permitted to make the determination that a site specific land use, building or construction is not designated for the purposes of section 59. Where such direction has been issued, a site specific land use, building or construction that is the subject of an application for approval under the Planning Act, Condominium Act or for a permit under the Building Code Act is not designated for the purposes of Section 59, provided that the planning authority or building official, as applicable, is satisfied that:</p> <p>a. The application complies with the written direction issued by the Risk Management Official; and</p> <p>b. The applicant has demonstrated that a significant drinking water threat activity designated for the purposes of section 57 or 58 will not be engaged in, or will not be affected by the application.</p>

Policy Number	Official Plan and Zoning By Law Amendment(s) Policies
RW-MC-1.4 <i>Future Land Use Planning</i>	<p>The Region of Waterloo and the Area Municipalities shall amend their Official Plan where necessary to conform with the significant drinking water threat policies, in accordance with Section 40 of the <i>Clean Water Act, 2006</i> to:</p>

Policy Number	Official Plan and Zoning By Law Amendment(s) Policies
	<p>a. Identify the vulnerable areas in which drinking water threats prescribed under the <i>Clean Water Act, 2006</i> are or would be significant;</p> <p>b. Indicate that within the areas identified, any use that is or would be a significant drinking water threat is required to conform with all applicable Source Protection Plan policies and, as such, may be prohibited, restricted or otherwise regulated by those policies;</p> <p>c. Incorporate any other amendments required to conform to the threat specific land use policies contained in this Source Protection Plan.</p>

Policy Number	Education and Outreach Program Policies
RW-CW-1.5 <i>Existing/Future Education & Outreach</i>	To support the significant drinking water threat policies contained within this Source Protection Plan, the Region of Waterloo, in collaboration with other bodies and levels of government where possible including but not limited to Area Municipalities, Grand River Conservation Authority and the provincial and federal agencies and/or organizations, shall develop and implement education and outreach programs. Where an existing education and outreach program appropriately addresses the policies of this plan, the Region of Waterloo may use the existing program to fulfill the policy requirements. Additional information on specific education and outreach programs can be found in the policies in this Source Protection Plan.
RW-CW-1.6 <i>Existing/Future Incentive</i>	To support the significant drinking water threat policies contained within this Source Protection Plan, the Region of Waterloo, in collaboration with other bodies and levels of government, where possible, shall develop and implement incentive programs applied to significant threats as identified in specific policies in this Source Protection Plan in accordance with applicable legislation. Where an existing incentive program appropriately addresses the policies of this plan, the Region of Waterloo may use the existing program to fulfill the policy requirements. Where incentives are available and where Risk Management Plans and/or Prescribed Instruments are identified for an existing activity, the incentives may be used to implement required beneficial management practices in accordance with applicable legislation. Specific incentive policies in this Source Protection Plan are to adhere to the general approach stated in this policy.
RW-NB-1.7 <i>Existing/Future Incentive</i>	The Ministry of the Environment, Conservation and Parks is requested to provide ongoing funding and support for incentive programs under section 22(7) of the <i>Clean Water Act, 2006</i> to protect existing and new drinking water sources and address significant

Policy Number	Education and Outreach Program Policies
	drinking water threats, such as the Ontario Drinking Water Stewardship Program.

Policy Number	Annual Reporting Policies
RW-CW-1.8 <i>Monitoring</i>	The Region of Waterloo and the Area Municipalities shall provide a report to the Source Protection Authority, by February 1 st of each year, summarizing the actions taken in accordance with section 46 of the <i>Clean Water Act, 2006</i> to implement the Source Protection Plan policies.
RW-CW-1.9 <i>Monitoring</i>	The Region of Waterloo and Area Municipalities shall provide copies of the notice of adoption to the Source Protection Authority regarding amendments to the Official Plan and Zoning By-laws for conformity with policies in the Plan within thirty (30) days of the adoption of the amendments by their respective Councils.
RW-CW-1.10 <i>Monitoring</i>	The Risk Management Official shall provide a report to the Source Protection Authority, by February 1 st of each year, summarizing the actions taken by the Risk Management Official(s) and Inspector(s) in accordance with the <i>Clean Water Act, 2006</i> and associated regulations.
RW-CW-1.12 <i>Monitoring</i>	Where the Source Protection Plan policies require a Provincial Ministry to undertake an activity under the Environmental Compliance Approval process or review, issue or amend a Prescribed Instrument, the applicable Provincial Ministry should: <ul style="list-style-type: none"> a. Provide a copy of the Prescribed Instruments to the Region of Waterloo; b. Provide a written report to the Region of Waterloo and the Source Protection Authority summarizing where Prescribed Instruments have been issued and/or amended and for each instrument a summary of the conditions included for source protection purposes.

Policy Number	Transition Policies
RW-MC-1.13 <i>Transition</i>	For the purposes of the Region of Waterloo Source Protection Plan policies, where one or more of the following has been received prior to the Source Protection Plan coming into effect: <ul style="list-style-type: none"> a. A complete application for site plan approval under the <i>Planning Act</i>; b. A complete application for Environmental Compliance Approval; c. A complete application for a Building Permit. <p>A related significant threat activity shall be permitted subject to the policies pertaining to existing significant threat activity as well as any further development applications and approvals required under the</p>

Policy Number	Transition Policies
	<p><i>Planning Act, Condominium Act, Building Permit or Prescribed Instruments</i> required to implement the development proposal associated with this significant threat activity.</p> <p>Where the above noted applications have lapsed or been withdrawn, this policy will no longer apply.</p>

Policy Number	Interpretation Policies
<p>RW-CW-1.14</p> <p><i>Interpretation of Source Protection Plan</i></p>	<p>The Source Protection Plan provides policies to meet the objectives of the <i>Clean Water Act, 2006</i>. The Source Protection Plan consists of the written policy text and Schedules.</p> <p>a. The Schedules in the Source Protection Plan identify the areas where the policies of the Source Protection Plan apply. The boundaries for the Specific Circumstances shown on the Plan Schedules are general. More detailed interpretation of the boundaries relies on the mapping in the approved Assessment Report and the Specific Circumstances found in the Tables of Drinking Water Threats, <i>Clean Water Act, 2006</i>;</p> <p>b. Where any Act or portion of an Act, regulation, policy statement or guideline (collectively “Act”) of the Ontario Government or Canadian Government is referenced in this Plan, such reference shall be interpreted to refer to any subsequent re-naming of sections in the Act, amendments to the Act, or successor thereof. No provision of this Plan shall be interpreted to derogate from any applicable law.</p>

Policy Number	Conditions Policies
<p>RW-MC-1.16</p> <p><i>Existing Prescribed Instr. Conditions</i></p>	<p>To address conditions resulting from past activities that are significant drinking water threats, the Ministry of the Environment, Conservation and Parks shall:</p> <p>a. Ensure that all Prescribed Instruments issued for Condition Sites include terms and conditions, as appropriate, to ensure that the risk to drinking water sources is managed. Appropriate conditions may include requirements for source control, remediation to provincial standards, monitoring and Contaminant Management Plans;</p> <p>b. Ensure that Prescribed Instruments include a condition requiring the instrument holder to report on the actions taken and the status of the site to the Ministry of the Environment, Conservation and Parks Source Protection Authority and the municipality on an annual basis;</p> <p>c. Provide to The Region of Waterloo a copy of the new or revised Prescribed Instrument.</p>

Policy Number	Conditions Policies
RW-NB-1.17 <i>Existing Specify Action Conditions</i>	To address Conditions resulting from past activities that are significant drinking water threats, the Ministry of the Environment, Conservation and Parks should prioritize abatement activities on Conditions Sites located within the Wellhead Protection Area A, Wellhead Protection Area B and Issues Contributing Areas.
RW-MC-1.18 <i>Land Use Planning Conditions</i>	To address known Condition Sites that are significant drinking water threats resulting from past activities, the Region of Waterloo and Area Municipalities shall require, as a component of a complete application under the <i>Planning Act</i> , the completion of an environmental screening process using a contaminated sites protocol. The contaminated sites protocol will outline the criteria when a Record of Site Condition (RSC) or other conditions will be required as part of the <i>Planning Act</i> application and shall be consistent with the Region of Waterloo contaminated sites protocol. The contaminated sites protocol will decrease the opportunity for contamination to leave the site and remove the property from the list of significant conditions over time.
RW-CW-1.19 Removed	Intentionally deleted to preserve numbering.
RW-CW-1.20 <i>Existing Specify Action Conditions</i>	<p>The Area Municipality shall provide to the Region of Waterloo any documents or records in possession or control of the municipality relating to soil and groundwater contamination on Condition Sites for the following areas:</p> <ol style="list-style-type: none"> In Wellhead Protection Areas A and B where the vulnerability equals or is greater than eight (8); or Where there is a Trichloroethylene (TCE) Issue, in all Wellhead Protection Areas where the vulnerability is greater than or equal to six (6).
RW-NB-1.21 <i>Existing Specify Action Conditions</i>	<p>To address conditions resulting from past activities that are significant drinking water threats the Ministry of the Environment, Conservation and Parks and the Region of Waterloo:</p> <ol style="list-style-type: none"> Shall meet at a minimum frequency of every six months for the purpose of mutually sharing information on Condition sites; Should mutually share information related, as appropriate, to technical investigations or remediation, technical data, actions taken by Ministry of the Environment, Conservation and Parks or by The Region of Waterloo, inspections, other relevant information; and Should develop an Information-Sharing Process document including requirements, if any, for meeting agendas, participants, the nature and format for the types of information to be mutually shared, and the Information-Sharing Process document should be developed within six months from the date the Source Protection Plan takes effect.

Policy Number	Strategic Action Policies: Spill Prevention, Spill Contingency or Emergency Response Plans
RW-NB-1.22 <i>Existing/Future Specify Action</i>	<p>To ensure Emergency Response Plans are updated for the purpose of protecting drinking water sources with respect to spills that occur within a Wellhead Protection Area or Intake Protection Zone along highways under the <i>Highway Traffic Act</i> and/or railway lines, the following policies apply:</p> <ul style="list-style-type: none"> a. Within one (1) year of the Source Protection Plan coming into effect, the Region of Waterloo and Area Municipalities are requested to incorporate the location of Wellhead Protection Areas and Intake Protection Zones into the Emergency Response Plan to protect drinking water sources when a spill occurs along highways and/or railway; b. Within six (6) months of the Source Protection Plan coming into effect, the Source Protection Authority in collaboration with the Ministry of the Environment, Conservation and Parks is requested to provide mapping of vulnerable areas to assist the Spills Action Centre in responding to reported spills along highways and/or rail lines.

Policy Number	Strategic Action Policies: Transport Pathways
RW-NB-1.23 <i>Future Specify Action</i>	<p>The Region of Waterloo and Area Municipalities should amend their Official Plans to require the assessment and mitigation of impacts of the establishment of transport pathways associated with <i>Planning Act</i> applications in Wellhead Protection Areas A and B where the vulnerability is equal to ten (10), in accordance with the Regional Implementation Guideline for Source Water Protection Studies to the satisfaction of the Region of Waterloo.</p>
RW-NB-1.24 <i>Future Specify Action</i>	<p>The Area Municipalities are requested to circulate to the Region of Waterloo all development applications including site plan approval, proposing to create a transport pathway in Wellhead Protection Areas A, B and C and in their decision to approval such applications consider the comments relative to Source Protection from the Region of Waterloo.</p>
RW-NB-1.25 <i>Existing/Future Specify Action</i>	<p>The Region of Waterloo and Area Municipalities are requested to update their Region of Waterloo and Area Municipalities Design Guidelines and Supplemental Specifications for Municipal Services document within two (2) years from the date the Source Protection Plan takes effect to consider Source Protection and to provide enhanced construction standards for transport pathways within Wellhead Protection Areas A and B to ensure that they do not contribute to the creation of significant drinking water threats.</p>

Policy Number	Prescribed Instrument Policies
RW-NB-1.26 <i>Existing/Future Prescribed Instr.</i>	The Ministry of Environment, Conservation and Parks the Ministry of Agriculture, Food and Rural Affairs and the Ministry of Northern Development, Mines, Natural Resources and Forestry for Prescribed Instruments for significant drinking water threats within vulnerable areas and/or for locations where a Condition is identified, should advise the Region of Waterloo regarding applications under review and provide the Region of Waterloo an opportunity to comment on these applications. The relevant Ministry should consider the comments submitted by the Region of Waterloo.
RW-MC-1.27 <i>Existing/Future Prescribed Instr.</i>	Any Prescribed Instrument issued under the <i>Nutrient Management Act</i> that is created or amended or is used for the purposes of obtaining an exemption from a Risk Management Plan under Section 61 of O. Reg. 287/07 shall incorporate terms and conditions that, when implemented, manage the activities they regulate such that those activities cease to be or never become a significant drinking water threat. The Ministry of Agriculture, Food and Rural Affairs is expected to review all Prescribed Instruments issued under the <i>Nutrient Management Act</i> in areas where the activities they regulate are or would be significant drinking water threats to ensure the Prescribed Instruments contain such terms and conditions including the Prescribed Instruments that are not directly created or issued by the Ministry of Agriculture, Food and Rural Affairs such as Nutrient Management Plans.

10.3 Policies Addressing Prescribed Drinking Water Threats

Threat 1.0 – The Establishment, Operation or Maintenance of a Waste Disposal Site within the meaning of Part V of the Environmental Protection Act

Policy Number	
RW-MC-2 <i>Existing/Future Prescribed Instr.</i>	<p>For existing and/or future waste disposal sites within the meaning of Part V of the <i>Environmental Protection Act</i> within vulnerable areas where this activity is or would be a significant drinking water threat:</p> <ol style="list-style-type: none"> a. The Ministry of the Environment, Conservation and Parks shall prohibit, within the Environmental Compliance Approvals process, the establishment of a new waste disposal site in the following vulnerable areas: <ol style="list-style-type: none"> i. In Wellhead Protection Areas A and B where the vulnerability is equal to ten (10) for the application of hauled sewage to land, land farming of petroleum waste, landfilling of hazardous waste, and storage of hazardous or Polychlorinated Biphenyl (PCB) waste at landfills or transfer stations;

Policy Number	
	<ul style="list-style-type: none"> ii. In Wellhead Protection Areas A, B and C where the vulnerability is greater than or equal to eight (8) for the injection of liquid industrial waste, landfilling of municipal waste and/or solid non-hazardous waste; iii. In Intake Protection Zone One (1) for the application of hauled sewage to land, land-farming of petroleum waste, or landfilling of municipal waste, solid non-hazardous waste, and/or hazardous waste, and storage of hazardous, or PCB waste at landfills or transfer stations; iv. In Intake Protection Zones Two (2) and Three (3) where the vulnerability is equal to nine (9) for the application of hauled sewage to land, land-farming of petroleum waste, or landfilling of municipal waste, solid non-hazardous waste, and/or hazardous waste, and storage of hazardous waste at landfills or transfer stations; v. In Wellhead Protection Area E where the vulnerability is greater than nine (9) for the application of hauled sewage to land, land-farming of petroleum waste, or landfilling of municipal waste, solid non-hazardous waste, and/or hazardous waste, and storage of hazardous waste at landfills or transfer stations ; vi. Where a Nitrate Issue has been identified, in all Issue Contributing Areas for landfilling of municipal waste and/or solid non-hazardous waste; vii. Where a Nitrate Issue has been identified, in all Issue Contributing Areas for the application of hauled sewage; viii. Where a Trichloroethylene Issue has been identified, in all Wellhead Protection Areas for the injection of liquid industrial waste, landfilling of municipal waste and/or solid non-hazardous waste. <p>b. The Ministry of the Environment, Conservation and Parks shall ensure that the Environmental Compliance Approval that governs an existing waste disposal site contains appropriate terms and conditions to ensure that the activity ceases to be a significant drinking water threat. The Environmental Compliance Approval should include annual reporting to the Ministry of the Environment, Conservation and Parks of water quality monitoring in related groundwater monitoring wells and surface water monitoring locations as appropriate in the following vulnerable areas where the following activities are identified as a significant drinking water threat:</p> <ul style="list-style-type: none"> i. In Wellhead Protection Areas A and B where the vulnerability is equal to ten (10) for the application of hauled sewage to land, land-farming of petroleum waste, landfilling of hazardous waste,

Policy Number	
	<p>and storage of hazardous or Polychlorinated Biphenyl (PCB) waste at landfills or transfer stations;</p> <ul style="list-style-type: none"> ii. In Wellhead Protection Areas A, B and C where the vulnerability is greater than or equal to eight (8) for the injection of liquid industrial waste, landfilling of municipal waste and/or solid non-hazardous waste; iii. In Intake Protection Zone One (1) for the application of hauled sewage to land, land-farming of petroleum waste, or landfilling of municipal waste, solid non-hazardous waste, and/or hazardous waste and storage of hazardous or Polychlorinated Biphenyl (PCB) waste at landfills or transfer stations; iv. In Intake Protection Zones Two (2) and Three (3) where the vulnerability is equal to or greater than eight (8) for the application of hauled sewage to land; v. In Intake Protection Zones Two (2) and Three (3) where the vulnerability is equal to nine (9) for the land-farming of petroleum waste, or landfilling of municipal waste, solid non-hazardous waste, and/or hazardous waste, and storage of hazardous waste at landfills or transfer stations ; vi. In Wellhead Protection Area E where the vulnerability is greater than or equal to eight (8) for the application of hauled sewage to land; vii. In Wellhead Protection Area E where the vulnerability is greater than nine (9) for the land-farming of petroleum waste, or landfilling of municipal waste, solid non-hazardous waste, and/or hazardous waste, and storage of hazardous waste at landfills or transfer stations; viii. Where a Nitrate Issue has been identified, in all Issue Contributing Areas for landfilling of municipal waste and/or solid non-hazardous waste; ix. Where a Nitrate Issue has been identified, in all Issue Contributing Areas for the application of hauled sewage; x. Where a Trichloroethylene Issue has been identified, in all Wellhead Protection Areas for the injection of liquid industrial waste, landfilling of municipal waste and/or solid non-hazardous waste. <p>Where there is a Nitrate Issue, the Environmental Compliance Approval for landfilling of municipal waste and/or solid non-hazardous waste, should include annual reporting to the Ministry of the Environment, Conservation and Parks and monitoring for nitrogen as appropriate.</p> <p>Where there is a Nitrate Issue, the Environmental Compliance Approval for the application of hauled sewage should include annual</p>

Policy Number	
	<p>reporting to the Ministry of the Environment, Conservation and Parks and monitoring for nitrogen as appropriate.</p> <p>Where there is a Trichloroethylene Issue, the Environmental Compliance Approval for the injection of liquid industrial waste, landfilling of municipal waste and/or solid non-hazardous waste should include annual reporting to the Ministry of the Environment, Conservation and Parks and monitoring for trichloroethylene and degradation products as appropriate.</p> <p>c. The Ministry of the Environment, Conservation and Parks shall ensure that the Environmental Compliance Approval that governs existing or new temporary waste destruction units for polychlorinated biphenyl contains appropriate terms and conditions to ensure that the activity ceases to be or does not become be a significant drinking water threat. The Environmental Compliance Approval should include annual reporting to the Ministry of the Environment, Conservation and Parks of water quality monitoring in related groundwater monitoring wells and surface water monitoring locations as appropriate in the following vulnerable areas:</p> <p>i. In Wellhead Protection Areas A and B where the vulnerability is equal to ten (10);</p> <p>ii. In Intake Protection Zone One (1).</p>

In Wellhead Protection Areas A and B where the vulnerability is equal to ten (10); ii. In Intake Protection Zone One (1); <p>Where a Nitrate Issue has been identified, in all Issue Contributing Areas where the vulnerability is greater than or equal to six (6).</p>
RW-CW-60 <i>Existing/Future Education & Outreach</i>	<p>The Region of Waterloo shall develop and implement an education and outreach program for persons engaged in the existing and future use of land as livestock grazing or pasturing land, outdoor confinement area or a farm animal yard in the following areas:</p> <ul style="list-style-type: none"> i. In Wellhead Protection Areas A and B where the vulnerability is equal to ten (10), for new use of land as livestock grazing or pasturing land; ii. In Intake Protection Zones Two (2) and Three (3) where the vulnerability is greater than or equal to eight (8); iii. In Wellhead Protection Area E where the vulnerability is greater than or equal to eight (8);

Policy Number	
	iv. Where a Nitrate Issue has been identified, in all Issue Contributing Areas except Wellhead Protection Area A.

Threat 22.0 – The Establishment and Operation of a Liquid Hydrocarbon Pipeline

Policy Number	22.1 – Conveyance of a liquid hydrocarbon by a pipeline
RW-NB-61 <i>Future Specify Action</i> <i>Significant:</i> WHPA-A-10; WHPA-B-10; IPZ-1-9 <i>Moderate/Low:</i> WHPA-B-6 & 8 WHPA-C-6 & 8 WHPA-D-6 WHPA-E-5.6 to 8.1 IPZ-2-7.2 IPZ-3-5 to 8	To ensure the establishment and operation of a liquid hydrocarbon pipeline within the meaning of O.Reg. 210/01 under the <i>Technical Safety and Standards Act</i> or that is subject to the <i>Canadian Energy Regulator Act</i> , never becomes a significant, moderate or low drinking water threat, where this activity would be a significant, moderate or low drinking water threat, the Canada Energy Regulator, or the Ontario Energy Board should ensure that the Source Protection Authority and the Region of Waterloo are provided the location of any new proposed pipeline.
RW-NB-61.1 <i>Future Specify Action</i> <i>Significant:</i> WHPA-A-10; WHPA-B-10; IPZ-1-9 <i>Moderate/Low:</i> WHPA-B-6 & 8 WHPA-C-6 & 8 WHPA-D-6 WHPA-E-5.6 to 8.1 IPZ-2-7.2 IPZ-3-5 to 8	To ensure the establishment and operation of a liquid hydrocarbon pipeline within the meaning of O. Reg. 210/01 under the <i>Technical Safety and Standards Act</i> or that is subject to the <i>Canadian Energy Regulator Act</i> never becomes a significant, moderate or low drinking water threat, where this activity would be a significant, moderate or low drinking water threat, the Canada Energy Regulator, Ontario Energy Board, Technical Standards and Safety Authority (TSSA), and Impact Assessment Agency should ensure that drinking water source protection is considered as a risk factor in their decision making framework.

Policy Number	22.1 – Conveyance of a liquid hydrocarbon by a pipeline
<p>RW-NB-61.2</p> <p><i>Future Specify Action</i></p> <p><i>Significant:</i> WHPA-A-10; WHPA-B-10; IPZ-1-9</p> <p><i>Moderate/Low:</i> WHPA-B-6 & 8 WHPA-C-6 & 8 WHPA-D-6 WHPA-E-5.6 to 8.1 IPZ-2-7.2 IPZ-3-5 to 8</p>	<p>To ensure the establishment and operation of a liquid hydrocarbon pipeline within the meaning of O. Reg. 210/01 under the Technical Safety and Standards Act or that is subject to the Canadian Energy Regulator Act never becomes a significant, moderate or low drinking water threat, where the activity would be a significant, moderate or low drinking water threat, pipeline owners should ensure that best available source protection information is used such as up to date vulnerable areas in assessment reports when developing, operating and maintaining liquid hydrocarbon pipelines, including developing and updating emergency planning zones (EPZs).</p>
<p>RW-NB-61.3</p> <p><i>Future Specify Action</i></p> <p><i>Significant:</i> WHPA-A-10; WHPA-B-10; IPZ-1-9</p> <p><i>Moderate/Low:</i> WHPA-B-6 & 8 WHPA-C-6 & 8 WHPA-D-6 WHPA-E-5.6 to 8.1 IPZ-2-7.2 IPZ-3-5 to 8</p>	<p>To ensure the establishment and operation of a liquid hydrocarbon pipeline within the meaning of O. Reg. 210/01 under the <i>Technical Safety and Standards Act</i> or that is subject to the <i>Canadian Energy Regulator Act</i> never becomes a significant , moderate or low drinking water threat, where the activity would be a significant, moderate or low drinking water threat, pipeline owners should, upon request by the Municipality, reimburse costs borne by the Municipality where work in relation to this activity is required by a regulator with regards to protecting drinking water sources or where the work identified by the drinking water system owner is supported based on due diligence and best practices as it relates to source protection and the protection of public health. Examples may include but are not limited to spill clean-up and rehabilitation activities, events-based modelling or other technical work required to support current vulnerability scoring.</p>

Threat 19.0 – An activity that takes water from an aquifer or a surface water body without returning the water taken to the same aquifer or surface water body

Threat 20.0 – An activity that reduces the recharge of an aquifer

Policy Number	
RW-CW-62 <i>Existing/Future Education & Outreach WHPA-Q</i>	To ensure that any consumptive water taking and any activity that reduces the recharge of an aquifer cease to be or never become significant drinking water threats, where these activities are or would be significant drinking water threats as prescribed by the <i>Clean Water Act, 2006</i> , the Region of Waterloo shall support any water efficiency education and outreach programs developed by The Township of Centre Wellington to promote water conservation, demand management and use of best management practices that maintain groundwater recharge for private water users within the Region of Waterloo.
RW-CW-63 <i>Existing/Future Specify Action WHPA-Q</i>	To ensure that any consumptive water taking and any activity that reduces the recharge of an aquifer cease to be or never become significant drinking water threats, where these activities are or would be significant drinking water threats as prescribed by the <i>Clean Water Act, 2006</i> , the Region of Waterloo will collaborate with the County of Wellington, Grand River Conservation Authority, and Ministry of the Environment, Conservation and Parks, to support management of local water resources and protection of municipal drinking water supply sources, including but not limited to establishing a drought response program, consideration of climate change impacts and mitigation, encourage monitoring, data sharing and coordination among the agencies, and support the use, maintenance, and update of the Tier 3 Water Budget model.
RW-CW-64 <i>Future Specify Action WHPA-Q</i>	To ensure that any consumptive water taking and any activity that reduces the recharge of an aquifer never become significant drinking water threats, where these activities would be significant drinking water threats as prescribed by the <i>Clean Water Act, 2006</i> , any municipality or conservation authority developing or approving a sub-watershed study terms of reference and monitoring program shall review, and where appropriate, incorporate the Tier 3 Water Budget results as part of the sub-watershed study.
RW-MC-65 <i>Existing/Future Prescribed Instr. WHPA-Q</i>	To ensure that any consumptive water taking ceases to be or never becomes a significant drinking water threat where this activity is or would be a significant drinking water threat as prescribed by the <i>Clean Water Act, 2006</i> , the following shall apply: <ul style="list-style-type: none"> a. The Ministry of the Environment, Conservation and Parks shall review and, if necessary, amend Permits To Take Water (PTTW) and / or Drinking Water Works Permits to ensure that the municipal supply will not be adversely impacted, and to consider the Tier 3

Policy Number	
	<p>Water Budget results including consideration of water supply requirements for planned growth and prolonged drought.</p> <p>b. The Ministry of the Environment, Conservation and Parks shall issue Permits To Take Water (PTTW) and / or Drinking Water Works Permits to ensure that the municipal supply will not be adversely impacted. The Ministry of the Environment, Conservation and Parks, where appropriate, should ensure the use of the Tier 3 Water Budget model, reports and data in its evaluation of these takings including consideration of water supply requirements for planned growth and prolonged drought.</p> <p>The Ministry of the Environment, Conservation and Parks shall consider the following Permit to Take Water terms and conditions that address:</p> <ul style="list-style-type: none"> i. groundwater and surface water monitoring; ii. demand management: water needs assessment (review of permitted maximum takings) and water efficiency measures; iii. information sharing with the Ministry of the Environment, Conservation and Parks, municipalities and conservation authorities including a condition of approval for permit holders to provide municipalities and conservation authorities technical reports and monitoring data gathered pursuant to a condition of the PTTW (as per first bullet); and iv. drought management planning for drought sensitive wells / systems.
<p>RW-MC-66</p> <p><i>Future Prescribed Instr. WHPA-Q</i></p>	<p>To ensure that any consumptive water taking never becomes a significant drinking water threat, where this activity would be a significant drinking water threat, as prescribed by the <i>Clean Water Act, 2006</i>, the Ministry of Northern Development, Mines, Natural Resources and Forestry, in consultation with the Ministry of the Environment, Conservation and Parks, owner of the municipal drinking water system for the respective WHPA-Q, and Grand River Conservation Authority, shall include appropriate terms and conditions in any new approvals under the Aggregate Resources Act, 1990 for extraction below the water table to ensure the sustainability of the applicable municipal water sources identified in the WHPA-Q.</p>
<p>RW-NB-67</p> <p><i>Existing/Future Specify Action WHPA-Q</i></p>	<p>To ensure that any consumptive water taking ceases to be or never becomes a significant drinking water threat where this activity is or would be a significant drinking water threat as prescribed by the <i>Clean Water Act, 2006</i>, the Ministry of the Environment, Conservation and Parks and / or the Ministry of Northern Development, Mines, Natural Resources and Forestry should ensure source protection is included as a risk factor of Sites with Permits to Take Water (PTTW) and / or</p>

Policy Number	
	<i>Aggregate Resources Act, 1990</i> Licenses in WHPA-Q Areas in the ministry local office risk-based compliance inspection planning process.
RW-MC-68 <i>Future Land Use Planning WHPA-Q</i>	To ensure that any consumptive water taking never becomes a significant drinking water threat where this activity would be a significant drinking water threat as prescribed by the <i>Clean Water Act, 2006</i> , the Region of Waterloo and local municipalities shall review and amend as required their Official Plan policies and / or study requirements, to ensure any consumptive water taking associated with a development application does not impact the sustainability of the Centre Wellington municipal water supplies and ensure any study associated with a development application is required to be submitted as part of a complete application.

Appendix A: List of Policies As Per Section 34 Of Regulation 287/07**LIST A**

Title: Significant threat policies that affect decisions under the *Planning Act* and *Condominium Act*, 1998

Opening Statement: “Clause 39 (1)(a), subsections 39 (2), (4) and (6), and sections 40 and 42 of the Clean Water Act, 2006 apply to the following policies:”

Content: RW-MC-1.2, RW-CW-1.3, RW-MC-1.4, RW-MC-1.13, RW-MC-1.18, RW-MC-6, RW-MC-7, RW-MC-17, RW-MC-18, RW-MC-36, RW-MC-47, RW-MC-68

LIST B

Title: Moderate and low threat policies that affect decisions under the *Planning Act* and *Condominium Act*, 1998

Opening Statement: “Subsection 39 (1) (b) of the Clean Water Act, 2006 applies to the following policies:”

Content: No Applicable Policies

LIST C

Title: Significant threat policies that affect Prescribed Instrument decisions

Opening Statement: “Subsection 39 (6), clause 39 (7) (a), section 43 and subsection 44 (1) of the Clean Water Act, 2006 apply to the following policies:”

Content: RW-MC-1.2, RW-MC-1.13, RW-MC-1.16, RW-MC-1.27, RW-MC-2, RW-MC-9, RW-MC-10, RW-MC-11, RW-MC-11.1, RW-MC-12, RW-MC-13, RW-MC-15, RW-MC-16, RW-MC-21.1, RW-MC-22, RW-MC-25, RW-MC-26, RW-MC-49, RW-MC-65, RW-MC-66

LIST D

Title: Moderate and low threat policies that affect Prescribed Instrument decisions

Opening Statement: “Clause 39 (7) (b) of the Clean Water Act, 2006 applies to the following policies:”

Content: No Applicable Policies

LIST E

Title: Significant threat policies that impose obligations on municipalities, source protection authorities and local boards

Opening Statement: “Section 38 and subsection 39 (6) of the Clean Water Act, 2006 applies to the following policies:”

Content: RW-CW-1.1.1, RW-CW-1.1.2, RW-CW-1.5, RW-CW-1.6, RW-MC-1.13, RW-CW-1.14, RW-CW-1.19, RW-CW-1.20, RW-CW-5, RW-CW-8, RW-CW-8.1, RW-CW-12.1, RW-CW-14, RW-CW-19, RW-CW-19.1, RW-CW-20.1, RW-CW-24, RW-CW-27.1, RW-CW-30, RW-CW-33, RW-CW-37, , RW-CW-39, RW-CW/NB-40, RW-CW-43, RW-CW-48, RW-CW-52, RW-CW-53, RW-CW-55.1, RW-CW-59, RW-CW-60, RW-CW-62, RW-CW-63, RW-CW-64, RW-MC-68

LIST F

Title: Monitoring policies referred to in subsection 22 (2) of the Clean Water Act, 2006

Opening Statement: “Section 45 of the Clean Water Act, 2006 applies to the following policies:”

Content: RW-CW-1.8, RW-CW-1.9, RW-CW-1.10, RW-CW-1.12, RW-NB-1.15, RW-MC-1.16

LIST G

Title: Policies related to section 57 of the Clean Water Act, 2006

Opening Statement: “The following policies relate to section 57 (prohibition) of the Clean Water Act.”

Content: RW-CW-1.1.1, RW-CW-1.1.2, RW-MC-1.13, RW-CW-3, RW-CW-20a, RW-CW-21, RW-CW-25, RW-CW-25.1, RW-CW-28, RW-CW-31, RW-CW-34, RW-CW-34.1, RW-CW-41, RW-CW-45, RW-CW-50, RW-CW-54, RW-CW-56, RW-CW-57

LIST H

Title: Policies related to section 58 of the Clean Water Act, 2006

Opening Statement: “The following policies relate to section 58 (Risk Management Plans) of the Clean Water Act.”

Content: RW-CW-1.1.1, RW-CW-1.1.2, RW-CW-4, RW-CW-20b, RW-CW-23, RW-CW-26.1, RW-CW-29, RW-CW-32, RW-CW-35, RW-CW-35.1, RW-CW-42, RW-CW-46, RW-CW-51, RW-CW-55, RW-CW-56, RW-CW-58

LIST I

Title: Policies related to section 59 of the Clean Water Act, 2006

Opening Statement: “The following policies relate to section 59 (restricted land uses) of the Clean Water Act.”

Content: RW-CW-1.1.1, RW-CW-1.1.2, RW-CW-1.3

LIST J

Title: Specify Action policies

Opening Statement: For the purposes of section 33 of Ontario Regulation 287/07, the following policies are identified as Specify Action policies:

Content: RW-NB-1.22, RW-NB-1.23, RW-NB-1.24, RW-NB-1.25; RW-NB-1.26, RW-NB-39.1

List K

Title: Significant threat policies targeted to bodies other than municipalities, local boards or source protection authorities for implementation

Opening Statement: The following policies are identified as non-legally binding policies:

Content: RW-NB-1.7, RW-NB-1.17, RW-NB-1.21, RW-CW-19, RW-CW/NB-39, RW-NB-39.1, RW-CW/NB-40, RW-NB-44, RW-NB-61, RW-NB-61.1, RW-NB-61.2, RW-NB-61.3, RW-NB-67

Appendix B: Prescribed Instruments and Policy Summary Tables

Table 1: Prescribed Instruments Which Apply To Source Protection Plan Policies In Lists C And D Above (S.34 (4) Of O. Reg. 287/07)

Policy #	Legal Effect (conform with, have regard to)	Environmental Protection Act	Nutrient Management Act	Ontario Water Resources Act	Pesticide Act	Aggregate Resources Act	Safe Drinking Water Act

10.4 Schedule A: Region of Waterloo Groundwater Systems: Index Map

10.5 Schedule B: Region of Waterloo Groundwater Systems: Map A

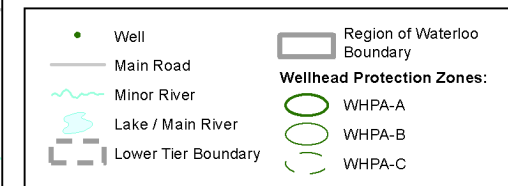

Significant Drinking Water Threat Policy Applicability

Significant Drinking Water Threat Policy Categories	Vulnerability Scores on Map		
1. Waste Disposal	10	8	2,4,6
2. Sewage Systems			
3, 4. Agricultural Source Material			
6, 7. Non-Agricultural Source Material*			
8, 9. Commercial Fertilizer*			
10, 11. Pesticide			
12, 13. Road Salt*			
14. Storage of Snow			
15. Fuel			
16. DNAPLs			
17. Organic Solvents			
18. Aircraft De-icing			
21. Livestock Area			
22. Oil Pipelines			

Note: This table provides a summary of the activities listed in the Clean Water Act (2006) that apply as Prescribed Drinking Water Threats (PDWT) within Non-GUDI Wellhead Protection Zones on this map. For details refer to the Drinking Water Threats Tables from the Ministry of the Environment and Climate Change, and the text of this Source Protection Plan.

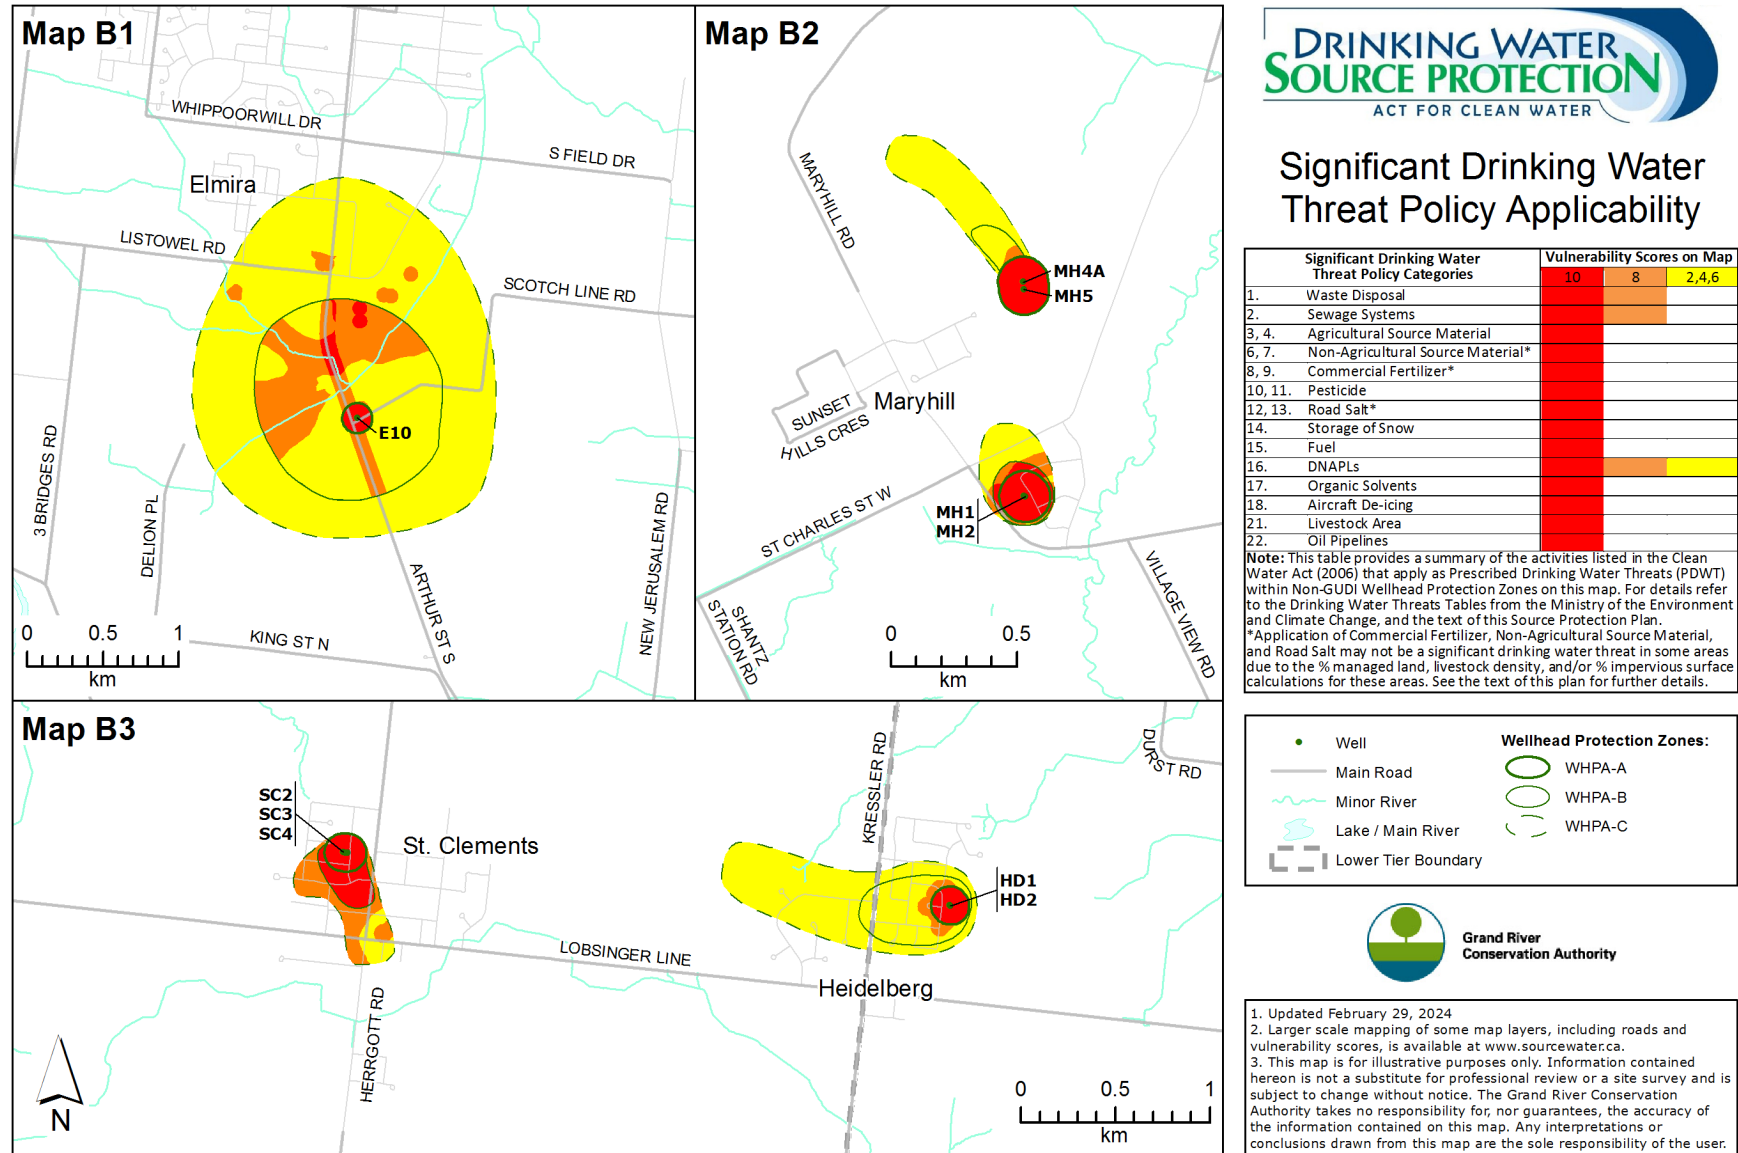

*Application of Commercial Fertilizer, Non-Agricultural Source Material, and Road Salt may not be a significant drinking water threat in some areas due to the % managed land, livestock density, and/or % impervious surface calculations for these areas. See the text of this plan for further details.
